Tibetan tap massage

Our life consists of vibrations that run through our body like waves. The Tibetan tap therapy aka tap massage is among the oldest forms of therapy in the world. This massage technique is based on the healing knowledge of Tibetan monks. Gentle hand techniques are used to bring your body's vibrations into harmonious oscillation. These techniques will relax you in order to lower inner barriers. Thereby, the body releases increased levels of positive hormones that stimulate and detoxify your body. You will learn the treatment methods on the musculoskeletal system. We will apply these methods on reflex zones or particular segments of the body. At the end, you will receive a certificate and a script.

Everyone, who is interested in providing something beneficial for themselves and their family, can reach the first Chakra degree. These inaugurations will take place on either one or two days depending on the energy oscillations. Therefore, be sure to plan an extra day into your schedule. The third Reiki degree

The third degree consists of two separate parts: the master and the instructor degree. You can book each part separately. They are each regarded as a complete training. One year of practice in which you have worked with energy and have trained your consciousness is a requirement for this class.

The Reiki Master degree

In this degree, we will go back to what we learned for the first and the second Reiki degree. Only after then, you will get initiated into the master degree. This will augment your energy potential. We offer an individual process which eventually leads to the master symbol and the fitting Mantra. This is the path of wisdom and understanding and the promise to act responsibly with it. One year of practice in which you worked with what you have learned in the second Reiki degree is a requirement for this class.

Dates: 14.04., 10.11.2018

Energy compensation: 730 Euro (incl. VAT)

The Reiki instructor degree

With this degree, you will gain the ability to inaugurate students into the paths of Reiki yourself. You will learn the process and all the rites of the inaugurations. By doing that, you will also train your deeper consciousness and receive new insights into Reiki. This will take about one year. During this time, we will offer individual classes. It is important to go on consciously and treat both energy and the force of Reiki responsibly.
